

FINANCIAL OPERATION

Policy 3100
(Regulation 3100)

Financial Management

The Board will adopt a series of policies to provide direction regarding the School District's budget and financial affairs which reflect the educational philosophy of the District and provide a framework in which the District's administration can effectively operate.

The budget and finance processes will conform to all state and local requirements as set forth by the State constitution, State statutes, Department of Elementary and Secondary Education rules, and Board policies.

Good business necessitates keeping accurate, legal and understandable records of receipts and expenditures. It is also essential that procedures be followed which will help to insure that the budget adopted by the Board is effective in providing parameters for the fiscal affairs of the District.

The purpose of the District budget and financial policies will be to provide direction for a systematized procedure that maintains continuity from year to year and informs the public regarding the education and financial operations of the District.

FINANCIAL OPERATION

Policy 3106

Financial Management

Fraud Prevention

The District is committed to protecting the public funds with which it has been entrusted. Minimizing the losses to fraud and corruption is an essential part of ensuring that all of the District's resources are used for the purpose for which they are intended.

The public is entitled to expect the District to conduct its affairs with integrity, honesty and openness, and demand the highest standards of conduct from those working for it and with it.

Definition of Fraud and Corruption

Although there is no precise legal definition of fraud, the term is used to describe a multitude of offences, including deception, forgery, theft, misappropriation, collusion and false representation of material facts.

Corruption arises when a person receives any benefit which influences them and causes them to act differently when conducting District business.

The District's Response

Board policy requires that matters involving any financial irregularities are referred to the Superintendent for investigation. These matters are taken seriously and additional action, such as disciplinary proceedings and/or prosecution, will be taken where evidence of offences is found.

The Superintendent/designee will:

- ◆ Compile a report of findings for submission to the Board with a recommendation as to whether disciplinary action is appropriate.
- ◆ Where appropriate, coordinate with the police in order for them to consider taking criminal action.
- ◆ Advise departments on how to address procedural weaknesses identified during investigation.

The Investigation Process

The purpose of any investigation is to establish the facts in an equitable and objective manner.

The process will involve the use of authority or delegated powers to:

- ◆ screen allegations or information to gauge their credibility;
- ◆ secure all evidence;
- ◆ interview suspects;
- ◆ interview witnesses;
- ◆ take statements; and
- ◆ coordinate with departments or other agencies (including the police).

The Superintendent/designee will establish and record the basis of the concerns raised and establish what further actions are required. The Board will be informed of all reported disclosures and the actions being taken. In the case of disclosures on alleged fraud and corruption, the Chief Financial Officer will inform the District's external auditors.

Whenever possible, the individual raising the concern will be advised of the outcome of the investigation. If an individual is not satisfied with the response received and any subsequent action taken, they should put their concerns in writing to the Superintendent who will arrange any further investigation as he/she deems appropriate. The Superintendent will send a written response to the individual concerned.

Reporting Suspicions

If fraud or corruption is suspected, then the matter should be reported without delay. Employees should report suspicions to a supervisor at the outset and retain all evidence. However, if it is thought the supervisor might be involved or there may be a conflict of interest, the matter should be reported directly to a more senior administrator.

It is recognized that for some individuals, raising a concern under this procedure may be a difficult experience. All reported incidents will be investigated.

All reports will be dealt with in confidence, with staff being informed on a need to know basis only.

To ensure that this policy is adhered to, and to assure staff that the concern will be taken seriously, the District will:

- ◆ not allow the person raising the concern to be retaliated against for doing so;
- ◆ treat retaliation against whistle blowers as a serious matter leading to disciplinary action that may include dismissal;
- ◆ not attempt to conceal evidence of poor or unacceptable practice;
- ◆ take disciplinary action if an employee destroys or conceals evidence of poor or unacceptable practice or misconduct; and

- ◆ ensure confidentiality clauses in employment contracts do not restrict, forbid or penalize whistle blowing.

Overall Objectives

The District's overall objective is to identify and maintain good practices, address weaknesses in current processes and introduce improved systems for the management of those processes. The end result is that of minimizing the amount of fraud and corruption which may occur within the system and significantly reduce the opportunity for fraud or corruption to occur in the future.

Preparation of Budget

Each year the Superintendent of Schools is required to submit to the Board of Education for their consideration a detailed annual budget showing estimates of income and expenditures for the ensuing fiscal year. The Board may accept, reject, modify or request revisions of the budget, but will adopt a budget by June 30, according to statutory provisions.

By law the approved estimated expenditures for each fund cannot exceed the estimated revenues to be received plus the unencumbered beginning cash balance for the fund. After the beginning of the fiscal year, the Superintendent shall review with the Board the adopted budget in relationship to the beginning cash balances for each fund.

Financial Management

Fiscal Year

The fiscal year begins annually on the first day of July and ends on the thirtieth day of the following June.

Financial Management

Budget Implementation and Transfer

The annual budget governs the expenditures and obligation of all funds for the District. The Superintendent/designee will establish procedures for funds management and reporting.

No funds may be spent which are not authorized by the annual budget. If an unanticipated need arises, the Board may approve the Superintendent's recommendation to (1) appropriate an amount to cover a needed expenditure from unencumbered budget surplus from the proper fund, or (2) revise the budget to transfer funds from one account to another as permitted by state statutes and DESE regulations.

The Superintendent or Finance Administrator will prepare a monthly statement to account for each month's expenditures and the total spent to date for the fiscal year. The monthly statement will include all receipts and remaining balances for each fund account.

District Fund Accounts

The District will maintain the following funds for the accounting of District moneys: teachers' fund, incidental fund, capital projects fund and debt service fund. The treasurer of the District will open and maintain an account for each fund. These funds are denoted for state reporting purposes as: General Fund, Fund 1 – comprised of the Incidental; Fund 2 – the Special Revenue Fund, comprised of the Teachers' Fund; Fund 3 – The Debt Service Fund; and Fund 4 – the Capital Projects Fund.

All sums received from the county school fund and all sums derived from taxation for teachers' wages will be credited to the teachers' fund. All tuition fees, state moneys received under §162.975 and 163.031, and all other sums received from the state except as otherwise provided in this policy will be credited to the teachers' fund and incidental funds at the discretion of the Board. The portion of state aid received by the District pursuant to §163.031, which is included in the operating levy for school purposes, will be credited to the debt service or capital projects funds. Sums received from other Districts for transportation and sums received from taxation for incidental expenses will be credited to the incidental fund. All sums received from taxation or received from any other source for the erection of buildings, building additions, remodeling, or reconstruction, furnishing, for the payment of lease purchase obligations, for purchase of real estate, for sale of real estate or personal property, from insurance, from sale of bonds other than refunding bonds will be credited to the capital projects fund.

Sums received from taxation for the retirement of bonds and the payment of interest on bonds will be credited to the debt service fund. Receipts from delinquent taxes will be credited to individual funds on the same basis as receipts from current taxes. However, where such distribution of receipts from delinquent taxes would affect the previous years' obligations, distribution to the various funds will be based on the levies for the years in which the obligations were incurred. All refunds will be credited to the fund from which the original expenditure was made. Sums donated to the District will be credited to the fund from which it can be expended to meet the purpose of the donation. Sums received from any other source will be credited to the fund designated by the Board.

Financial Management

Petty Cash

A petty cash fund is a small amount of money (\$100.00 or less) that is managed by an administrator in order to purchase small amounts of supplies or cover unanticipated small expenses, such as materials or refreshments for emergency meetings or unexpected guests. The petty cash fund may have been obtained with a requisition to the District Finance Office, raised by a P.T.O., or from a student or community fund-raising event. The designated administrator is accountable for this fund. Funds collected in excess of \$100.00 must be processed immediately for proper deposit and are not to be held at a school site.

The petty cash fund must be used for school purposes (purchase of emergency supplies) and must be documented with receipts. If an administrator accrues out-of-pocket expenses, a requisition for reimbursement should be submitted on a monthly basis with back-up information and receipts.

Teachers may not make petty cash purchases without the prior approval of an administrator.

Petty cash should not be used as a short cut to obtain supplies except in an emergency or in cases where very small items make it impractical to order through channels.

Financial Management

State and Federal Projects

With Board of Education approval, the School District may operate various specially funded programs that must be administered in accordance with particular federal and/or state laws, regulations and other conditions for use of such funds.

The Superintendent shall be the designated District official responsible for coordinating funded projects, administering programs and ensuring that the various departments operating these programs do so within the guidelines of the particular program. The administration shall keep accurate and separate records, as required by state and federal programs, to enable the District to verify program compliance and success. The Superintendent shall keep the Board fully informed.

Staff involvement will be solicited by the administration in the planning, implementation and evaluation of programs authorized and approved within the guidelines of Title I of the Improving American Schools Act of 1994 and/or other significant legislative enactments. The vehicle for such involvement shall be determined by the administration, with the approval of the Board of Education.

Banking Services

Policy 3140
(Regulation 3140)
(Form 3140)

The Board of Education has the option of annually selecting District funds depositaries or the Board may enter into a contract of one to five years duration for the deposit of District funds.

When depositaries are to be selected, the District will receive sealed proposals from banking institutions in the county in which the District is located or in adjoining counties.

In order to open new bank accounts in the District's name, the Superintendent and the Treasurer must sign the account authorization. Wire transfers of funds into District accounts must be authorized in writing by the Superintendent and Treasurer or other individual authorized by the Board. In both instances, the Superintendent may appoint a designee to sign for creation of new accounts and for wire transfers. However, such appointment must be in writing.

Financial Management

Payment Procedures

All money received by the District shall be disbursed only for the purposes for which they are levied, collected or received.

The Board will give final approval to all bills paid. Payment of bills shall be authorized by the Superintendent/designee, only after verification of delivery and satisfaction by the department or staff receiving the item(s). No payment for goods or services shall be made unless both an itemized invoice showing the name of the person or firm to whom payment is due is presented, and a receiving document bearing the signature of an authorized school employee is on file. Furthermore, the invoice must have been issued in response to an approved purchase order.

The Superintendent/designee shall audit all claims, and shall submit all invoices to the Board for approval and authorization for payment. However, payments for materials or services which are necessary for normal business operations which do not individually exceed \$500 or exceed an aggregate monthly amount of \$10,000 may be authorized by the Superintendent/designee. In addition, if cash discount or avoidance of financial penalty can be achieved, the Superintendent/designee is authorized to issue a check. In all such cases, the identity and amounts of such payments will be provided to the Board at the next regular meeting following payment. The Board will consider such payments and ratify the action taken.

FINANCIAL OPERATION

Policy 3160
(Regulation 3160)

Financial Management

Investment of District Funds

The Board has an obligation to the citizens of the District to direct the management of District funds. The primary objective of the District's investment plan will be legality, safety, liquidity, yield and the provision of a capital base for future needs. In the management of such funds, the District adheres to the "prudent investor" rule. Investments will be made with judgment and care, under the circumstances which persons of prudence, discretion and intelligence exercise in the management of their own investments. Funds will be managed for investment, not for speculation considering the safety of the funds invested and the probable income to be derived.

District personnel, including Board members, who are involved in the investment of District funds, will not engage in any personal business activity which could:

1. Impair their ability to make impartial decisions concerning investment of District funds;
2. Conflict with proper execution of the District's investment program; or
3. Create an appearance of impropriety.

District employees and directors involved in investment of District funds will disclose any material interests in financial institutions in which they conduct business. Such disclosure will include, but not be limited to any personal financial/investment positions that could be related to the performance of the District's investment portfolio. Similarly, District employees and directors involved in investment of District funds will not engage in personal investment transactions with the same individual with whom business is conducted on behalf of the District.

Investments will be made through banks or securities dealers who have been approved by the Investment Committee of the State Treasurer's Office. Such banks and securities dealers will have been subjected to an appropriate investigation by the staff of the State Treasurer's Office. This investigation will include, among other things, a written review of the firm's financial statements and the background of the sales representatives. All approved dealers must be fully licensed and registered NASD Brokers/Dealers or exempt banks. Criteria used to select securities dealers include:

1. Financial strength and capital adequacy of firm;
2. Services provided by firm;

3. Research service available;
4. Résumé, reputation, and qualifications of sales representatives;
5. Due diligence and firm references; and
6. State government expertise.

The performance goals of the District's active investment management program, over time, should produce book yields that are greater than yields from low risk passive investments. In analyzing the results of the District's investment program, the District will calculate the book yield and total rate of return on District funds compared to the appropriate security market indexes.

The Superintendent/designee will direct the preparation of quarterly investment reports providing a summary of the District's current investment portfolio and all transactions executed since the last report.

Such investment reports will be prepared by the appropriate bank(s) or security dealers for review by the Board and the Superintendent. Investment reports are considered to be public records and will be made accessible to the public.

Criteria and procedures implementing the District's investment policy have been approved by the Board and are contained in Regulation 3160.

The Superintendent shall recommend the appropriate tax rate to the Board of Education for approval.

If required, the Board shall submit to the voters a proposition for increase in the tax rate beyond the current approved level if it is deemed necessary to obtain increased revenue to meet projected District expenses. State law and Article X, Section 11C of the Missouri Constitution shall govern tax election procedures.

State Tax Sources

All state funds will be accepted for the operation of the District as provided by entitlement by law and through regulations of the Missouri State Board of Education or Missouri Department of Elementary and Secondary Education.

Management

School activity funds are used to finance a program of student activities which supplement but do not take the place of the instructional programs provided by the Board of Education. Whether funds are collected from student contributions, club dues, special activities, or result from admissions to events or from other fund-raising activities, all funds will be under the jurisdiction of the Superintendent and building principals. The funds will be expended to benefit students currently enrolled in school. The management of the funds will be in accordance with good business practices, including sound budgetary and accounting procedures, and will be audited in the same manner as District funds. There shall be full disclosure of the sources and expenditures of all funds.

Insurance

Insurance Programs

The Board of Education shall maintain adequate insurance programs to cover property, liability and personnel, within the requirements of good risk management and state law. The administration will recommend to the Board the kind and amount of property, casualty and/or liability insurance needed for the protection of the District property, employees, and Board of Education, and will administer insurance authorized by the Board, unless otherwise directed.

Every effort shall be made to obtain insurance at the most economical cost consistent with required service by obtaining quotations or by negotiations, whichever method is advantageous to the District.

The District will maintain coverage on all buildings and capital outlay contents. Coverage should be 100% without coinsurance if available.

Liability coverage should include comprehensive general liability, employee benefits liability, vehicular liability and school board legal liability. (See also Policy 3730 - Liability Insurance.)

Insurance

Liability Insurance

The Board recognizes that legal actions may be initiated from time to time against the School District as a corporate entity, against the Board as a whole, against Board members as individuals, or against District officers, employees or other agents. The Board also recognizes the contribution that is rendered to the students of the District by volunteers and is mindful that legal actions may be initiated against these individuals as well.

To protect members of the Board, District officers, employees, other agents and volunteers in the performance of their duties and responsibilities, the Board will defend its Board members, officers, employees, other agents and volunteers against claims for suits arising out of the performance of their duties and responsibilities. The Board shall indemnify its Board members, officers, employees, other agents and volunteers against all financial liability or loss resulting from such claims or suits including judgments for damages, attorney's fees, fines, court costs and amounts paid in settlement of such matters and reasonable and customary ancillary costs. Ancillary costs may include, for example, travel expenses incurred by Board members or others if they must appear for a case that is being tried outside the area.

The protection provided by this policy shall apply on an occurrence basis, which means that an individual will be indemnified even though he/she is no longer a member of the Board of Education or employed by or otherwise associated with the District when the lawsuit is filed.

The Board reserves the right, however, to deny representation and indemnification to any person covered by their Board policy in any instance in which there would be no coverage under the District applicable liability insurance program in which the claim "results in civil judgment or criminal conviction for" an intentional tort, immoral conduct, violation of any criminal or civil statute or violation of Board policy or regulations or administrative order or directive, whether verbal or written.

As a prerequisite to the right of legal representation and indemnification, any person who is served with legal notice commencing any action or proceeding against him/her for which indemnification is sought is required to immediately notify the Superintendent of the legal action after receipt of such legal notice.

The District shall maintain a program of self-insurance and/or insurance coverage sufficient to provide the legal defense and indemnification described in this policy. However, the District's purchase of liability insurance does not waive the District's entitlement to sovereign immunity.
